

GUARDIAN ANGEL TASKS

- 1 Must be willing to communicate with prisoner on Corrlinks (inmate email) and come into the Facebook Guardian Angel hub page to remain informed of the latest intel.
- 2 Keep CAN-DO Profile page updated and/or in some instances help create a profile page if a person qualifies. Coordinate with a family members or applicant to obtain 2-3 photos for the profile page.
- 3 Determine whether applicant has provided a liability release form. If not, mail them one that you will be able to download from this page.
- 4 Familiarize yourself with the details of applicants case, strong points, health issues, etc. If they have a profile page, check the information to make sure it is up to date. Send applicant a copy for them to review.
- 5 Assist with media outreach - if applicant wishes media, especially local media is a good place to start if their name has been submitted to the WH.
- 6 Determine whether Judge has written letter supporting clemency and if not, determine if contacting the Judge is a viable option and proceed - someone with CAN-DO will assist and provide oversight, if necessary. We suggest making a phone call first and will provide assistance and review letter before anything is mailed out.
- 7 Encourage family to contact their Representative to seek support and can provide tips on how to proceed.
- 8 Determine whether applicant has a change.org petition and if not, determine whether they are a good candidate and/or desire one.
- 9 If and when candidate has a change.org petition it's important to promote the petition using social media. CAN-DO will help optimize the number of signatures due to our partnership with Change.org; all drug clemency petitions are under the CAN-DO Movement page that has 500K followers.
- 10 Strategize on how to get your candidate the maximum exposure and assistance they need to come home. Some organize rallies, letter writing campaigns, etc.
